July 6, 2018

Dear Parents, Teachers and Employees,

Our diocese has completed an Asbestos Management Plan for every diocesan school as required by the Asbestos Hazard Emergency Act (AHERA). All schools in the diocese that have asbestos will have to be re-inspected.

One requirement demands that we provide annual notification to parents, teachers, and employees about the availability of the plan. This is the purpose of this letter.

The plan is available for inspection in the office of the Principal, Mrs. Kim Porter, located in Holy Name School. Request to view the Asbestos Management Plan should be made to Mrs. Porter and will be honored within 5 (five) days of receiving the request. Copies of the Plan 9, or parts of it, are available at a cost of \$0.25 per page.

We have been implementing the Asbestos Management Plan. We are intent on not only complying with, but exceeding the federal, state and local regulations in this area. We plan on taking whatever steps are necessary to insure a healthy, safe environment in which to learn and work.

Inspection and testing reveals that we have no friable ACBM in our buildings. Non-friable ACBM is in the tiles under the carpet in the four classrooms. All areas of the school are being maintained in an operations and maintenance program.

Sincerely,

Mrs. Kim Porter
